June 2012: This review has been significantly expanded to include detailed analysis of the performance of the D800 alongside its closely-related stablemate the D800E. We have also added samples and analysis of the D800/E's uncompressed video feature. Except where specifically noted, any comments in the body of this review which reference the 'Nikon D800' actually refer to both models.

Nikon D800 and D800E AF Controls. bigger. M/A - M Switch. Most newer AF-S lenses have an M/A - M switch as shown. The M/A position means AUTOFOCUS and M is manual focus. The reason autofocus is marked M/A is because you may grab the focus ring at any time for instant manual-focus override. It's a combination auto-manual setting. The M position can be considered a way to lock-out the autofocus ...

After I published the article on the recommended settings for the Nikon D600 / D610, I received plenty of requests from our readers that asked me to write a similar article for the Nikon D800 and D800E cameras. Since I own and use both frequently, I decided to expand the series to other cameras. In this article, I want to provide some information on what settings I use and shortly explain what ...
